Unique Personal Concierge Business Opens in San Diego

Company focuses on personalized services for clientele

San Diego, CA— Today the owner of San Diego Personal Concierge announced the official launch of San Diego's premiere personal concierge agency with a focus on client-customized service.

"I'm incredibly excited about this company. It's something I've wanted to do for so long and now it's a reality," said San Diego Personal Concierge Owner and Founder, Rebecca Condello. "Helping people by taking things off their list and allowing us to do their planning, organizing, shopping, or whatever they need is an honor. I love giving people back their free time," she said.

The company provides a lengthy list of services to clients including Personal and Virtual Assistant, Event and Travel Planning, Organization, and Personal Shopping services to name a few. Clients choose services based on their requirements and timelines, and a qualified assistant is assigned to ensure clients have the best possible experience. Condello added, "Details matter, so expect us to spend time getting to know you and asking questions to make sure you're getting the personalized service that separates us from anyone else."

San Diego Personal Concierge was founded by the owner who spent years in Corporate America and felt as though she had no free time. "All of my nights and weekends were busy with chores and errands, and I thought about how nice it would be to hire someone to do it so I could relax and enjoy life," said Condello. This inspired her to start San Diego Personal Concierge.
